

To the FCC:

I am a loyal XM Radio listener. I pay a fee, not unlike Cable Television, to receive the content that I want to hear, when I want to hear it, anywhere in the US. I respectfully request that you reject the NAB's petition 04-160 to limit the content of satellite radio. If the "airwaves" broadcasted what we wanted to hear, we wouldn't have had to make the switch.

Sincerely,
Carole Goetzelmann
